

# + THE RIGHT PRESCRIPTION FOR HEART FAILURE MEDICATION PRESCRIBERS

## Introducing the **NEW** Optimal Medical Therapy Heart Failure Certificate Program from HFSA!

The all-new OMT-HF Certificate Program gives healthcare providers who do not specialize in heart failure the opportunity to learn about therapies, dosing and prescription optimization to better manage their heart failure patients. This program will educate healthcare providers about heart failure leading to improved long-term patient outcomes and quality of life.

### Who It's For

Healthcare providers and prescribers of heart failure therapies, including physicians, physician assistants, nurse practitioners and PharmDs.

### How It Works

HFSA offers a fully virtual, asynchronous certificate program that allows participants to learn at their own pace.

### Why It Matters

Healthcare providers who utilize OMT for their heart failure patients see numerous benefits, including:

- Improved quality of life for patients
- Reduced heart failure hospitalizations
- Increased knowledge of new and emerging therapies
- Improved patient outcomes

## Help others get the prescription for better heart failure care...

Spread the word with your teammates who do not specialize in heart failure!
