

# Novartis US Clinical Development and Medical Affairs

At Novartis, we harness innovative science and digital technologies to address some of society's most challenging health care issues.

Our researchers work to push the boundaries of science, broaden our understanding of diseases, and develop novel products in areas of great unmet medical need such as cardiovascular disease.

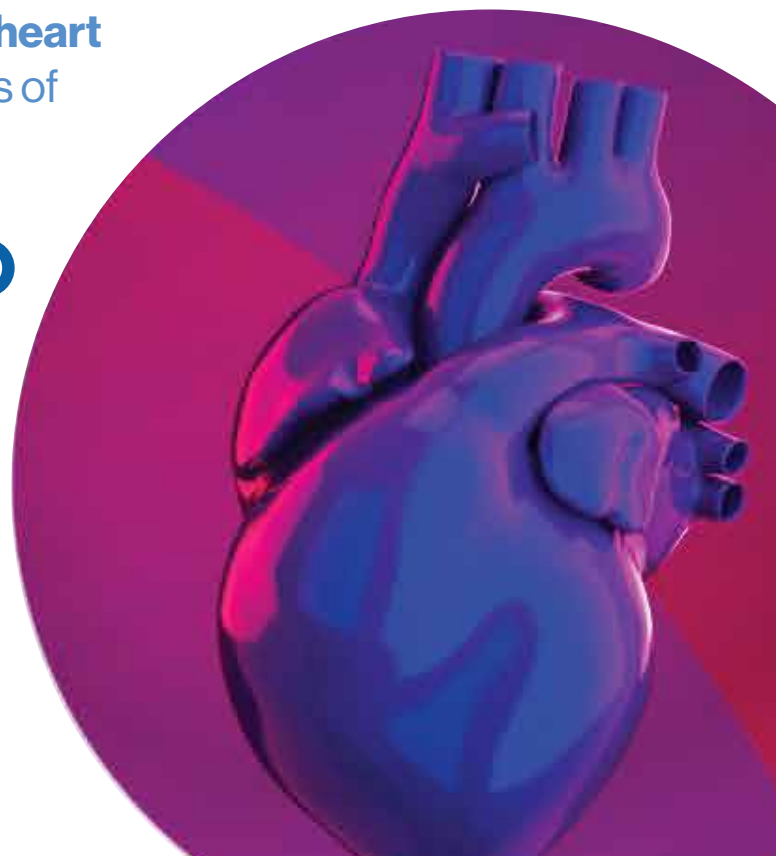

We are passionate about discovering new ways to extend and improve patients' lives. We are reimagining medicine.

Explore our commitment to **heart failure** education at the Halls of Science and Innovation.
